

# RCO

## Falcon-2000 Gateway

IIOT Data Gateway for real-time monitoring of your plant and field equipment. Imagine the possibilities with on board GPS, temperature, shock, humidity and blue tooth sensors built in. Features battery operation or external DC power inputs.

## Stay Connected Anywhere

Works with apple iPhone and iPad so you can see dynamic real time information with graphs and smart dashboards.

## Supports Major Brands

Modbus®

ASCII

SIEMENS

EtherNet/IP™

Fleet telematics with complete cold chain tracking from the trailer temperature to complete door history. Sends text and email alerts when alert condition detected. With humidity detector avoid perishable food problems.
